

POINTS TO REMEMBER FOR VIRTUAL GATHERINGS.

In order to speed up the process of a Virtual Gathering Please take note of the following.

1. How to record your video:

Recording done on a regular Cowboy Dressage 20/40 court.

- **The person taking the video must please announce the rider, the horse and the test.**
We cannot hear when the rider announces themselves.
 - To film, you will set your camera behind the letter C (where the judge normally will be seated) make sure you have all the corners visible;
 - Set your camera **horizontally**;
 - Be sure to get the **full picture** of the horse in the corners –Y-M and Q- H;
 - Zoom in when the rider is at “A”, and zoom out when the rider approaches “A” coming towards “C”. Do not zoom in too much – the horse must be visible relative to his position in the arena.
 - Keep the camera as still as possible and do not “follow” the horse. Rather zoom out.
 - Please adhere to the Cowboy Dressage rules relating to dress code and tack.
 - Do not add music to non- Freestyle tests.
 - The clearer the video, the easier it is to judge.
2. Every video should be **labeled before submission**. We often receive a video of a horse and rider and we have no idea who this is, and what test they are doing. **We need the name of the Rider, the name of the horse, and the test.**
 3. **Only videos submitted to “www.wetransfer.com will be accepted.**
 4. When sending your Proof of Payment via e-mail, please use your register number as reference.

See this [video](#) for tips on videoing your cowboy dressage test.

Thank you all, your effort is really appreciated. Cowboy up and have fun.
